Views of COVID-19 in Wyoming – 6/8/20

A snapshot survey of Wyoming residents

June 8th, 2020

This WyoSpeaks survey of Wyoming citizens was conducted over the course of 24 hours beginning on June 8 at 7:00 AM. The survey is designed to gauge public opinion on a number of topics related to COVID-19 (Coronavirus) and approval ratings for how the president, congress, our governor, and local officials are handling the crisis. This is the fifth iteration of our COVID-19 tracking survey, which will be fielded at regular intervals to collect information about the changing views of Wyoming residents over time.

Methodology

This brief presents the results of the fifth of multiple surveys planned in 2020 to measure public opinion on a number of topics related to COVID-19 (Coronavirus) and approval ratings for how government officials are handling the related crisis.

The survey was conducted among a randomly selected sample of Wyoming residents who are members of the Wyoming Survey & Analysis Center's (WYSAC) WyoSpeaks panel of Wyoming citizens.

The survey was conducted online for 24 hours, with the first email invitations sent to the selected respondents at 7:00 AM on June 8th, 2020. A total of 1374 WyoSpeaks panel members were drawn into the survey sample; 498 completed the survey.

www.uwyo.edu/wysac

When factoring in bad email addresses and quota screen outs, we are left with a response rate of 42.0%.

The survey instrument contains questions developed internally, as well as questions included in the Great Lakes Poll, fielded by Baldwin Wallace University.

The survey implemented a quota for age, with the quota sizes based on data from the 2013-2017 American Community Survey 5-year estimates. The quota approach was used to maximize the representativeness of the initial survey responses so that less data weighting was required after data collection closed.

The survey results are weighted by gender, age, and respondent' county. The overall margin of error for questions asked of all respondents is ± 4.4 percentage points. Total column percentages may not add to 100% due to rounding error. This project is funded internally by WYSAC.

About WyoSpeaks

The mission of WyoSpeaks is to give voice to Wyoming citizens on important issues facing our state and make public policy more responsive to the opinions of our citizens.

WYSAC's WyoSpeaks survey panel uses probability-based sampling methods to monitor the perspectives of Wyoming citizens through online surveys. WyoSpeaks surveys allow researchers to draw statistically valid inferences about the state as a whole. Over the course of a year, the Wyoming Survey & Analysis Center conducts a number of state-wide telephone surveys where all Wyoming residents have an equal probability of selection. During these surveys, respondents are given the opportunity to join the WyoSpeaks panel of Wyoming citizens. The only way to be added to the WyoSpeaks panel is through this random selection process. WyoSpeaks offers researchers, agencies, and organizations a cost-effective alternative to focus groups and robust telephone and mail surveys with a quick turnaround of statistically valid and reliable results.

For more information about pricing and getting your questions answered by the WyoSpeaks panel members, please email us at wysac.src@uwyo.edu.

Key Findings

This survey, conducted Monday June 8th, is the fifth of multiple surveys WYSAC plans to field to measure public opinion on a number of topics related to COVID-19. A total of 498 Wyoming residents participated in the survey representing all Wyoming counties, with a margin of error of plus or minus 4.4 percentage points.

Complete survey results, along with charts and figures, can be found in the main body of the report. Here are some of this survey's key findings:

- Fifty-seven percent of residents say they are extremely or somewhat comfortable with attending an outdoor event in Wyoming this summer or fall with up to 250 people. Alternatively, 33 percent say they are somewhat or extremely uncomfortable.
- When considering outdoor events this summer or fall with more than 250 people, 52 percent of residents say they are extremely or somewhat comfortable attending. Alternatively, 38 percent say they are somewhat or extremely uncomfortable attending outdoor events of this size.
- A quarter of Wyoming residents say they are not changing their daily routine specifically because of COVID-19, and increase of 9 points from one month ago.
- Over half (58 percent) of residents say they are not attending public gatherings, a decrease of 12 percentage points since May. Fifty-eight percent of residents also say that they are washing their hands more frequently, a decrease of 8 points. A ten-point decrease was observed in those that say they are avoiding physical contact with others to 58 percent, compared to 68 percent in May.
- One-quarter of Wyoming residents say they always wear a mask when in an indoor public place, contrasting with 28 percent who say they never wear a mask when in an indoor public place.
- Thirty-eight percent of residents say it is very likely that they will get the vaccine for COVID-19 if it becomes available, a decrease of 11 points from one month ago. Just over a quarter (26 percent) say it is very unlikely that they will get the vaccine.
- Fewer residents are reporting difficulty purchasing household items they wanted for their home, with 36 percent saying they have had difficulty in the past two weeks, a decrease of 15 points from one month ago. Similarly, 33 percent say they have experienced difficulty purchasing groceries or other food they wanted for their home, a decrease of 13 points from one month ago.
- Approval of the way Gov. Mark Gordon is handling the COVID-19 crisis remains high, with 70 percent saying they strongly approve or somewhat approve of the way he is handling things. Gordon's net approval rating (approval minus disapproval) is at plus 46 percent.

- Approval of the way President Donald Trump is handling the COVID-19 has remained steady with 56 percent saying they strongly approve or somewhat approve of the way he is handling things. President Trump's net approval rating a plus 17 points.
- Regarding the way local government and health officials are handling the COVID-19 crisis, 68 percent say they strongly approve or somewhat approve of the way they are handling things. The net approval for these entities is at plus 42 percentage points, a decrease of 4 points from two weeks ago.
- Approval of the way Congress is handling the COVID-19 crisis decreased 3 percentage points, with 32 percent saying they strongly approve or somewhat approve of the way Congress is handling things. The net approval rating for congress is minus 26 percentage points.

Questions and Survey Results

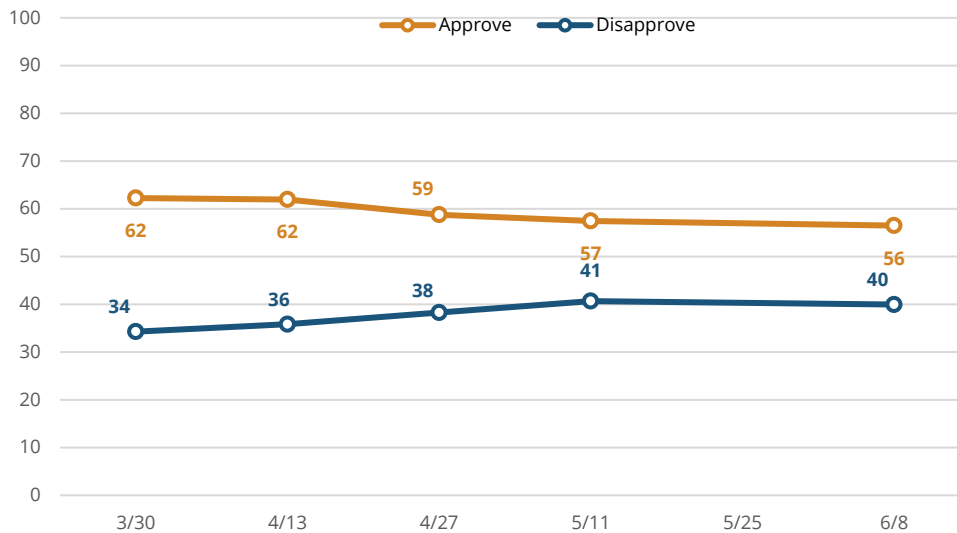

Q2 Do you approve or disapprove of the way President Donald Trump is handling COVID-19 (coronavirus)?
